

OMEGA 3 PREMIUM 1000 mg

Omega 3 Premium 1000 mg is an additional source of vitamin E and polyunsaturated fatty acids (eicosapentaenoic and docosahexaenoic acid), recommended for daily intake, to make up for the deficiency of omega 3 in the body. The content of polyunsaturated fatty acids (PUFA) Omega 3 Premium 1200 mg is 60%.

PUFA supports the cardiovascular system, reduces the risks of diseases of the body, which is in a heavily polluted environment.

PUFA reduces low-density lipoproteins normalize the ratio of cholesterol and triglycerides in the blood, this is an important factor in the fight against diseases of the cardiovascular system and atherosclerosis.

PUFAs help to cleanse blood vessels and slow down the processes of thrombosis, create conditions for increasing the body's immunity, qualitatively affect the improvement of memory and have an anti-inflammatory effect.

How to use: Adults take 1 capsule a day with meals.

Contraindications: Individual intolerance to dietary supplements, pregnancy, breast-feeding.

Docosahexaenoic acid	250 mg

Our formula for success consists not only in high-quality raw materials and balanced composition, but also in storage. Often the manufacturer saves on packaging, several factors are associated with this desire: the cost of delivery, the cost of the packaging itself and packaging. We went the other way, chose environmentally friendly and recyclable materials – glass and aluminum. Read more about what our banks are made of in the "technologies" section.
