HEALTH. NATURALLY.

VITAMIN C 500 mg

Vitamin C is one of the most important trace elements on which the immune system depends. Vitamin C deficiency is caused by poor nutrition, sleep quality and constant stress. Every second inhabitant of our planet is deficient in this vitamin, especially in the autumn-winter period. As part of the supplement, the vitamin is presented in the most biologically available form and dosage equivalent to the recommended daily norm - 500mg.

Regular intake of vitamin C, which is part of the complex, contributes to:

- Normal functioning of the immune system
- Maintaining the normal function of the immune system during and after intense physical exertion
- Normal functioning of the nervous system
- Normal psychological state
- Reducing fatigue and fatigue
- Protection of cells from the oxidative process
- The formation of collagen for the normal function of blood vessels, bones, cartilage, gums, skin and teeth

Method of use: 1 capsule per day with meals.

Supplements facts:

1 capsule contains:		
Name of the component	**Quantity, mg**	**NRV**
L - Ascorbic acid	500 mg	833 %

Our formula for success consists not only in high-quality raw materials and balanced composition, but also in storage. Often the manufacturer saves on packaging, several factors are associated with this desire: the cost of delivery, the cost of the packaging itself and packaging. We went the other way, chose environmentally friendly and recyclable materials – glass and aluminum. Read more about what our banks are made of in the "technologies" section.
