

GRASSBERG

HEALTH. NATURALLY.

HEALTH NATURALLY 2026

Grassberg, an English trademark, is a part of a holding that has been manufacturing dietary supplements and sports nutrition in the European Union for over 15 years. The high quality of our products is confirmed by certificates issued by one of the world's leading certification companies - bureau veritas - in compliance with **GMP, ISO 22000:2006 and ISO 9001:2015** international standards. Moreover, our production meets more demanding requirements than specified by standard regulations.

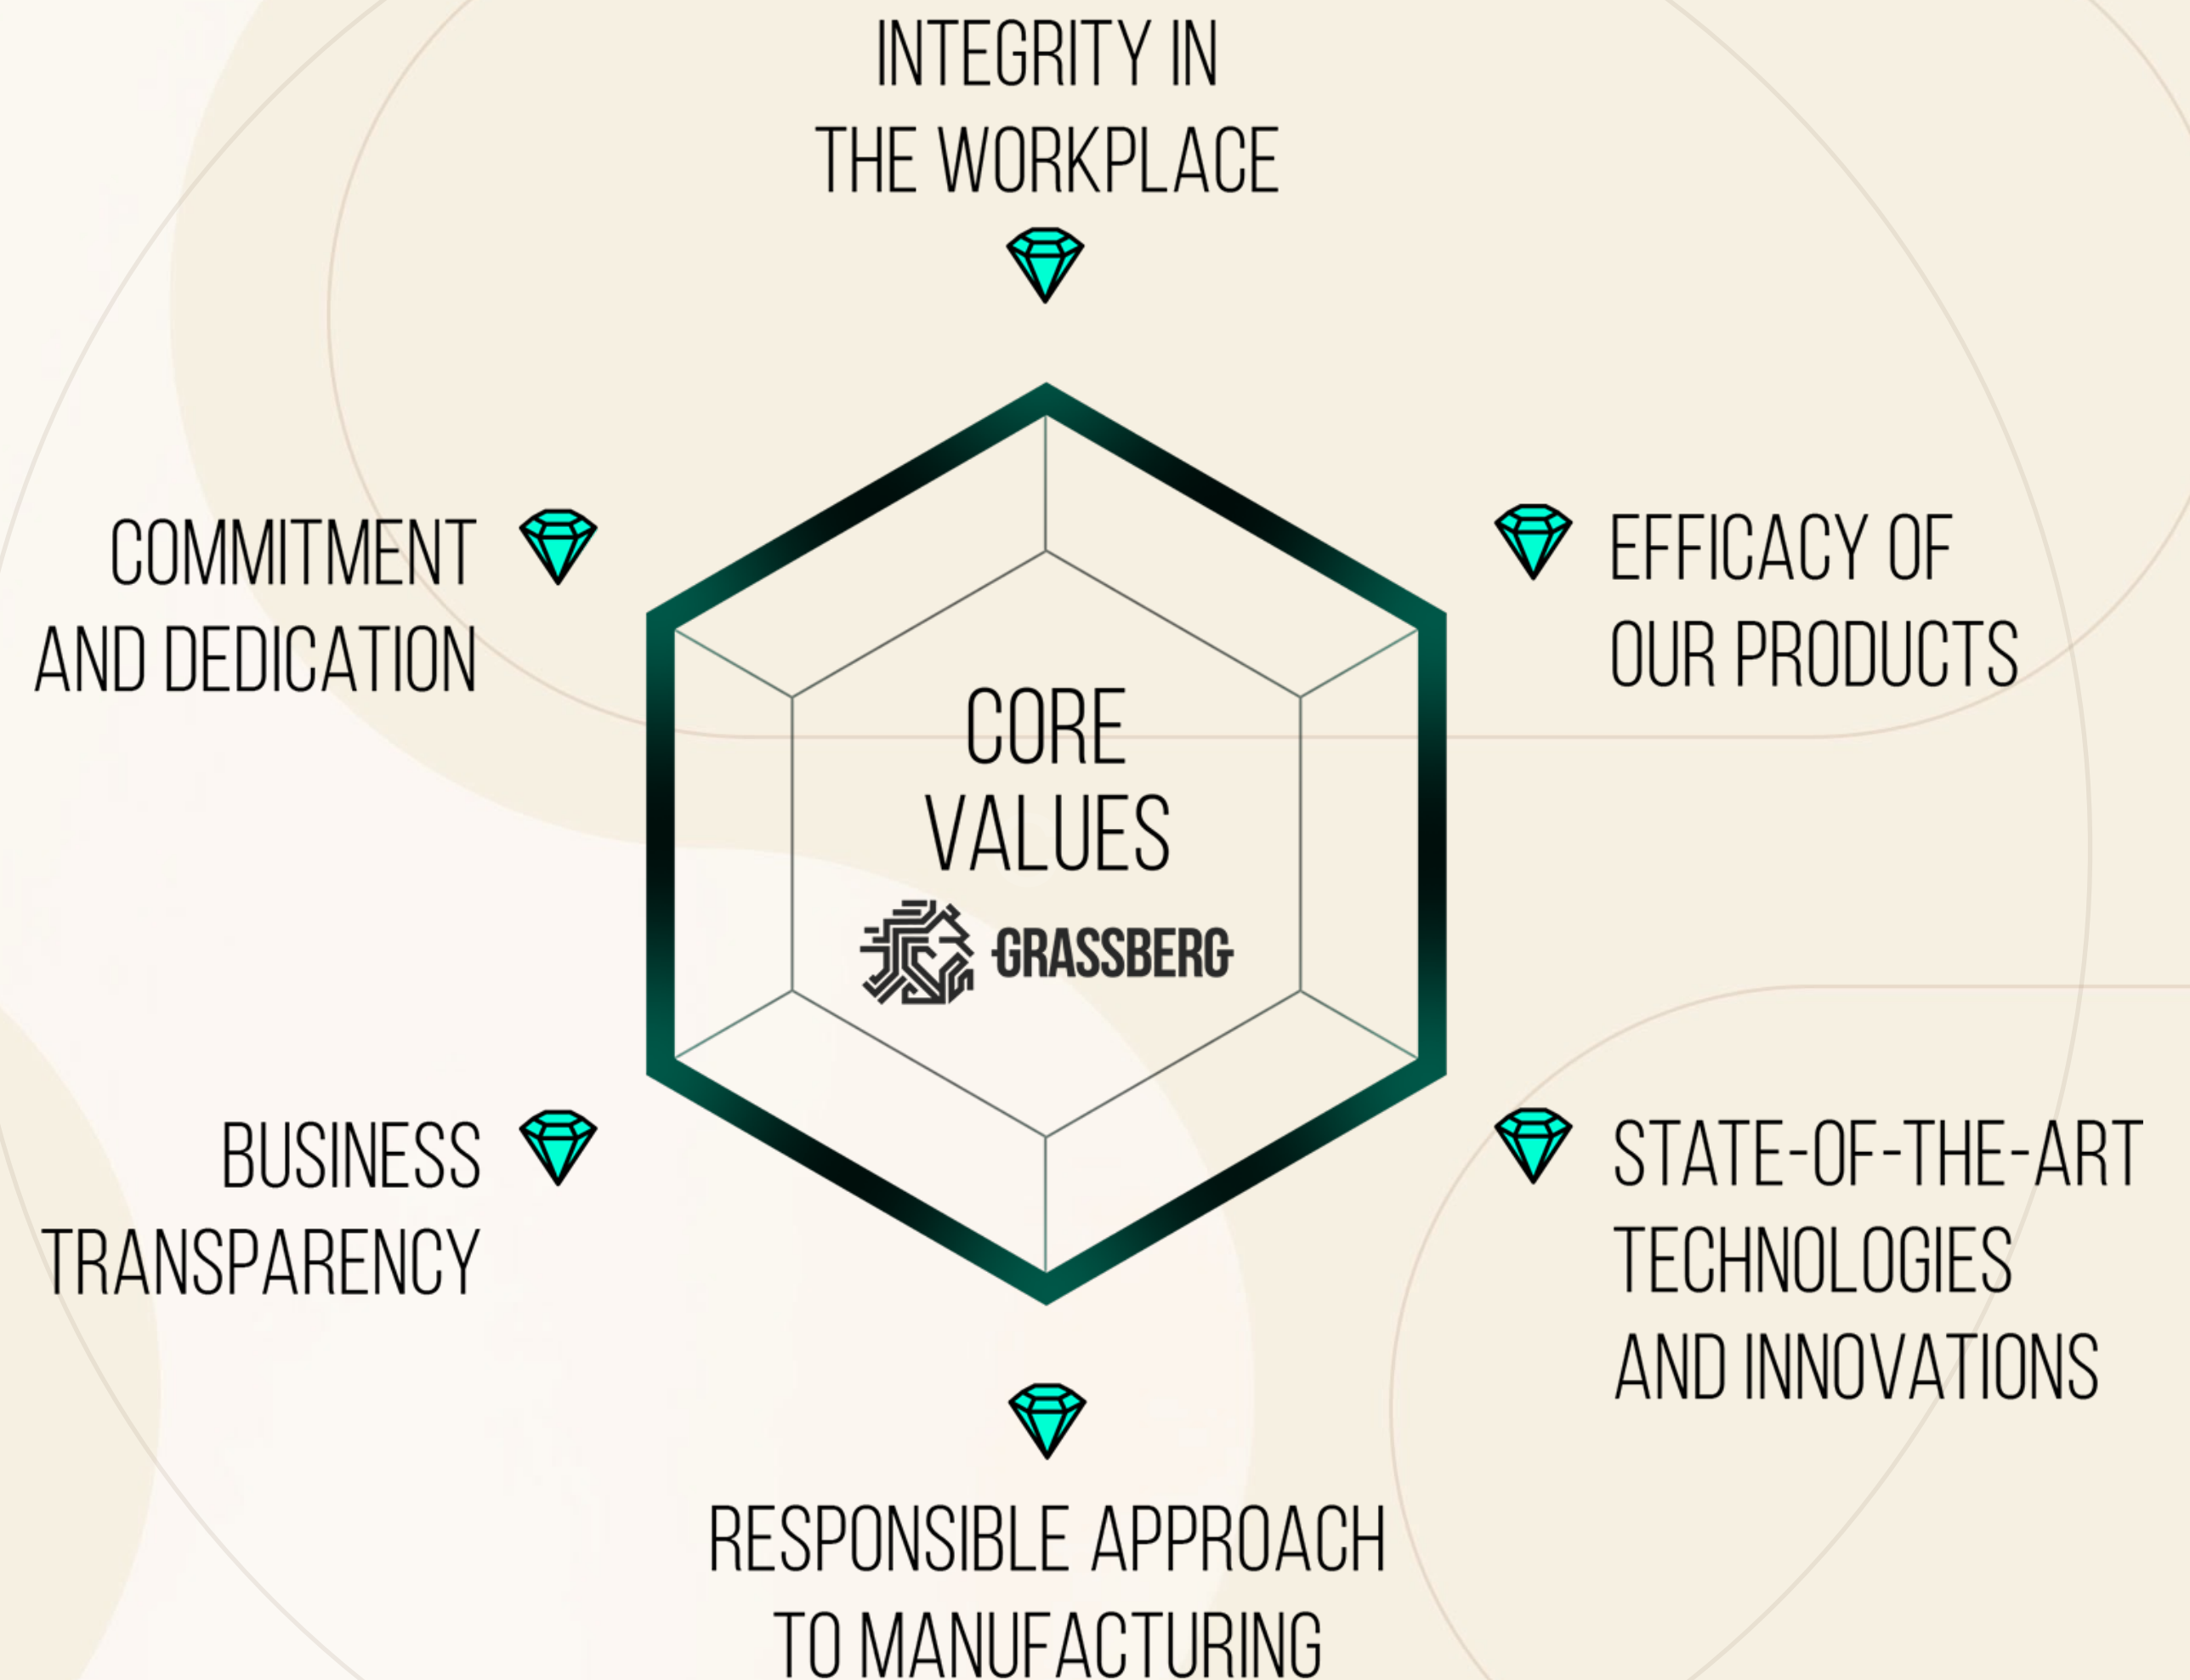

Our mission

We offer our consumers in **Europe** and around the world an opportunity to maintain good health. Staying true to our core values, we received a special award - trust and gratitude of our customers for effectiveness of our products.

Quality control, from purchasing raw materials and shipping them to our manufacturing facilities, compliance with strict European quality regulations, random sampling of products from different batches and testing products in different environments to ensure quality and safety for our customers.

Grassberg production facilities are located in Europe. Our scientists and technologists strive to produce new and enhanced products, designed to maintain and improve quality of life for our customers.

The Grassberg is one of the few brands that actively criticizes the use of packaging harmful to nature, that is “PLASTIC.” Many manufacturers are chasing for cost savings, but not only nature suffers from this, but also people themselves. Products in such packaging are stored less, losing their useful properties, absorbs various trace elements, such as dibutyl ether, used in the production of plastic packing.

One of the most reliable materials for storing food additives is glass. In such packaging, the products retain their properties for as long as possible, are reliably protected from sunlight, and do not absorb additional trace elements that are part of the package. Glass is a classic example of recycling a material into a new container.

The second largest recyclable material. This is aluminum, it can be reused after processing in almost the same volume. Aluminum is reliable and does not come into contact with the product. It is very important to have a sealed lid to reduce oxygen access inside the package.

Grassberg - global partners. Thanks to our partners and nature friendly high standard quality - we are proudly presenting globally our brand.

The Grassberg company is a global supplier of products, one of the indicators of product quality is the passage of certifications and inspections in country laboratories before the release of products to the local market.

TOTOX (Total Oxidation Index) - is a laboratory indicator that measures what can affect the concentration of oil (including omega 3 fish oil, krill oil or algae).

Halal for biologically active additives (dietary supplements) is a system of requirements that confirms that the product and the entire process of its creation comply with the norms of Islamic law (Sharia).

GMP (Good Manufacturing Practice, or "good manufacturing practice") is a system of requirements for the organization of the entire production process. It ensures that biologically active additives (dietary supplements) are produced consistently, safely and in compliance with all quality standards.

The **omega-3 PUFA line** includes various products for the most popular requests. **Omega oil** is a high-quality raw material, which is confirmed by the **TOTOX index, which has a value of 12 units**. This indicates the high quality of the raw materials. Tested on Omega 3 Premium 1200 mg.

THE HIGHEST CONCENTRATION OF OMEGA 3, PUFA WILL SUPPORT BLOOD VESSELS AND HEART

THE CONCENTRATION NEEDED TO NOURISH BRAIN CELLS WILL SUPPORT ATTENTION AND MEMORY.

A BALANCED COMPLEX PUFA 3-6-9 FOR PEOPLE INVOLVED IN SPORTS

A PREVENTIVE DOSE OF PUFA WILL SUPPORT THE IMMUNE SYSTEM, REGULATE THE WORK OF ALL ORGANS AND SYSTEMS

Magnesium is a broad-spectrum component and an important part of **more than 300 enzymes**. This is especially true for the **heart and stressed muscles** that consume a lot of energy. **Magnesium bisglycinate** is a highly bioavailable form of magnesium designed to provide comprehensive daily support to the body.

MAGNESIUM BISGLYCINATE

MAGNESIUM + VITAMIN B6

Alpha-lipoic acid is naturally found in the body and participates in key processes of cellular energy metabolism. It supports the function of mitochondria, the “powerhouses” of cells, contributing to efficient energy production and the normal functioning of the body as a whole.

A POWERFUL UNIVERSAL ANTIOXIDANT
THAT PLAYS AN IMPORTANT ROLE IN
PROTECTING CELLS FROM OXIDATIVE STRESS.

ALPHA-LIPOIC ACID SUPPORTS
YOUR ENERGY METABOLISM AND
PROMOTES CELL REJUVENATION.

Multivit & Minerals – includes a full spectrum of vitamins and minerals for total health support. The supplement contains optimal dosages of macro and microelements, it is **Grassberg's** proprietary solution.

Multivit & Minerals ULTRA - From chelated minerals for gentle absorption to active folate and B12 for methylation support, this formula checks all the boxes your customers demand.

DIRECTED MULTIVITAMIN
COMPLEX

DIRECTED MULTIVITAMIN
COMPLEX IMPROVED FORMULA

A line for maintaining the beauty and health of women. The complex product **Skin Hair Nails**, combined with the mono-product **Collagen Premium 500**, gives the maximum effect.

SKIN HAIR NAILS – A WELL-BALANCED SUPPLEMENT THAT SUPPORTS NATURAL BEAUTY OF HAIR, NAILS AND SKIN.

COLLAGEN PREMIUM 500 IS A HYDROLYZED COLLAGEN, REINFORCED WITH VITAMIN C.

The active formulas of the **vitamin D3** range activate the immune system, regulate the central nervous system, stimulate calcium absorption, support cognitive functions and a healthy state of the body.

AN INTEGRATED SOLUTION
FOR MAINTAINING BONE
AND CARDIOVASCULAR HEALTH

REPLENISHES VITAMIN D3,
WHICH IS NECESSARY FOR REGULATING
PHOSPHORUS-CALCIUM METABOLISM.

VITAMIN D3 IN LIQUID FORM,
FOR THE MOST EFFECTIVE USE

A line of mono products with a balanced composition, from **Grassberg**, for effective use every day.

LECITHIN IS A NATURAL SOURCE
OF ESSENTIAL FATTY ACIDS
FOR THE LIVER.

IT IS A POWERFUL ANTIOXIDANT
INVOLVED IN VARIOUS PROCESSES
IN THE BODY.

FOLIC ACID, FOR
THE PREVENTION OF FOLATE
DEFICIENCY ANEMIA

IT CONTAINS THE MOST BIOAVAILABLE
FORM OF THE MINERAL, WHICH
SIGNIFICANTLY IMPROVES ITS ABSORPTION.
